Registrar, Ohio Bureau of Motor Vehicles	)	
P.O. Box 16520	)	
Columbus, OH 43216	)	
	)	
Respondent	)	

This Petition is submitted pursuant to R.C. 4510.037(B). The Petitioner asks the court to withdraw the "12 Point" suspension which the Respondent seeks to impose against his/her license. Alternatively, the Petitioner asks the court for an order granting him/her limited driving privileges during the suspension.

In support hereof, the Petitioner states the following:

1. I have received notice from the Respondent that my license will be suspended on the twentieth day after the notice was mailed due to my accumulation of 12 points with a two-year period. The notice, a copy of which is attached, states that my license will be suspended for a period of six months or until compliance. I am filing this Petition within 20 days after the notice was mailed to me.

2. I allege that I can show cause why the suspension should not be imposed.

3. I am at least 18 years old, I reside within the jurisdiction of this court, and I agree to pay the cost of this proceeding.

4. Alternatively, I request limited driving privileges during the suspension. Presently, my license is not under any other suspension and is otherwise valid. At the hearing on this Petition, I will provide the court with written proof of current financial responsibility.

5. The back of the Notice of Suspension states that if I am granted limited driving privileges the BMV will not consider them valid unless I submit an order granting privileges and other requirements to the BMV. Those requirements are a $40.00 reinstatement fee, a Certificate of Completion of Remedial Driving Course and Proof of Financial Responsibility (SR22 or bond). If the court grants me privileges, I will

submit that order and the above requirements to the BMV and I understand that I must do so before my privileges will be valid.

WHEREFORE, I ask that this Petition appealing my suspension be granted. In the alternative, I ask that I be granted limited driving privileges during the suspension.
